

Replication 2

Enxhi Buxheli

2/17/2019

Table 1

	All respondents	Waits on platform	All respondents
Question	ATE (P)*	CATE (P)	T1 levels (SD)
Number of immigrants be increased?†	0.09 (0.008)	0.083 (0.012)	0.489 (0.272)
Children of undocumented be allowed to stay?	0.073 (0.016)	0.098 (0.016)	0.441 (0.362)
English as official language?	0.03 (0.27)	0.043 (0.152)	0.619 (0.364)
n	109	100	109

In the first "All respondents" column, ATE represents responses in T2-T1 for the treatment group compared with the control group for the entire experimental sample. Positive values mean a more politically conservative response. In the "Waits on platform" column, CATEs are the Conditional Average Treatment Effects for persons who said they stand on the platform, rather than wait in their cars. In the second "All Respondents" column, T1 levels and SDs for each variable for all respondents. All variables scaled 0-1.

* P values from a one-tailed test against the Null Hypothesis of no effect are in parentheses.

† Each of the questions allowed responses on a five-point scale ranging from strongly agree to strongly disagree (exact answers were changed to be appropriate to the actual question)

Figure 2

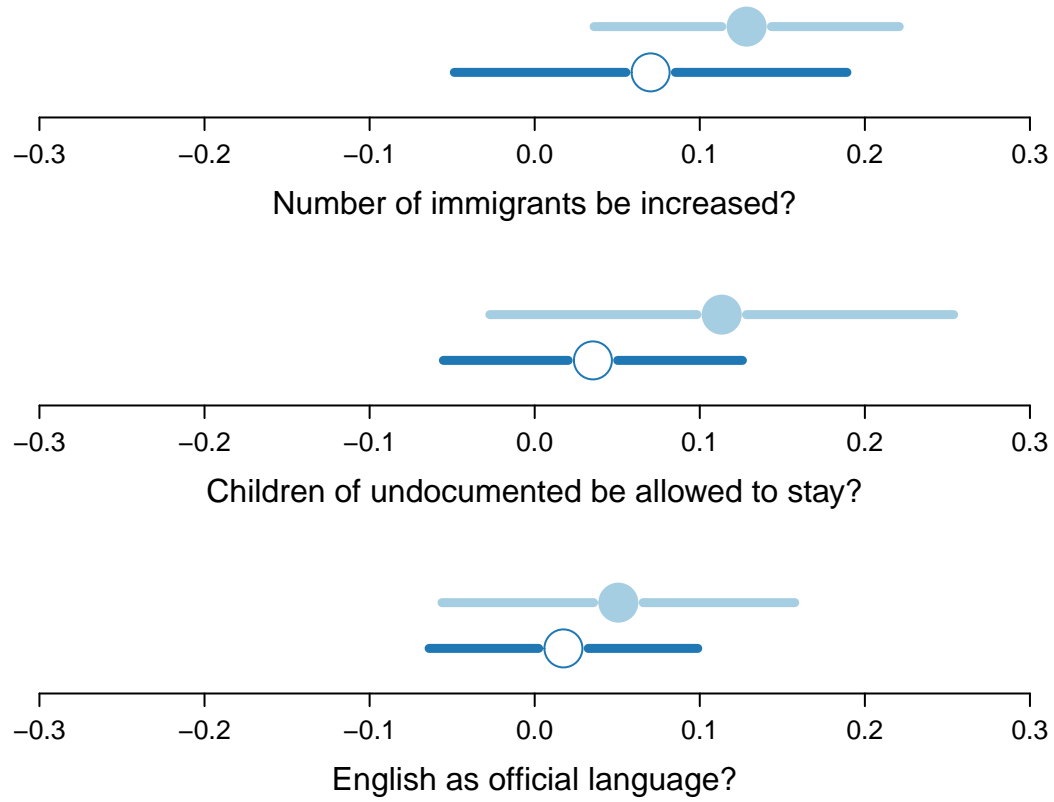

Table 2

	Control	Treatment	Standard Difference*	Z Score
Liberal†	0.47	0.47	0.01	0.03
Republican	0.17	0.19	0.05	0.24
Obama disapprove	0.27	0.29	0.05	0.24
Ride MBTA every day	0.85	0.90	0.15	0.72
Voted 2010	0.77	0.66	-0.24	-1.12
Romney voter	0.24	0.22	-0.07	-0.34
Hispanic threat	0.06	0.05	-0.07	-0.33
Age	44.66	40.43	-0.35	-1.63
Residency year	8.22	7.07	-0.19	-0.91
College	0.89	0.86	-0.06	-0.30
Male	0.60	0.60	-0.01	-0.03
Hispanic	0.03	0.05	0.11	0.58
White	0.91	0.83	-0.24	-1.25
Income	144,724.04	138,094.40	-0.09	-0.44

* Difference in standardized units.

† Mean response values for pretreatment variables accounting for stratification into train stations. All variables are 0 and 1 variables, except for Hispanic threat, which is a seven-point scale indicating how threatening respondents find Hispanics, recoded 0–1; residency, which is measured in years; and income, which is annual income in dollars.
